

SUMMER TOURS

Street Dance Training
with John "Comix" Barrella

HIP HOP BREAKING POPPING LOCKING

Each year, I use summer teaching tours to reach a massive number of dance studios by making it easier than ever to hire an out of state educator/choreographer.

You don't have to be in one of my tour zones to book a workshop. Roughly 1/3 of my annual trips are not part of my tour dates.

However, if your city is in or near one of the states I'm visiting this summer, we just might have the opportunity to book a workshop that drastically reduces the additional expenses when hiring out of state instructors.

My Most Frequent Tour Zones

I visit all areas of the country, but these are the most rapidly booked areas.

The New England Tour

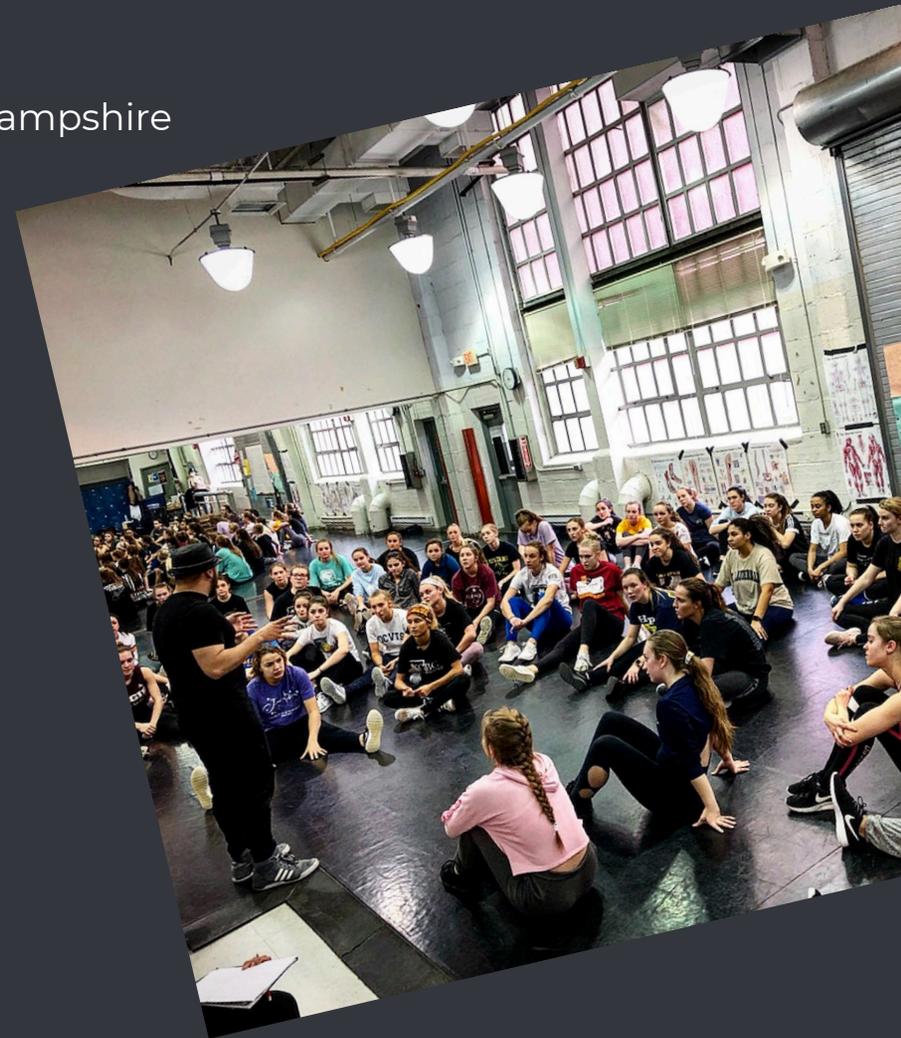

Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire

The East Coast Tour

Delaware, Maryland, Virginia, North Carolina, South Carolina

The Midwest Tour

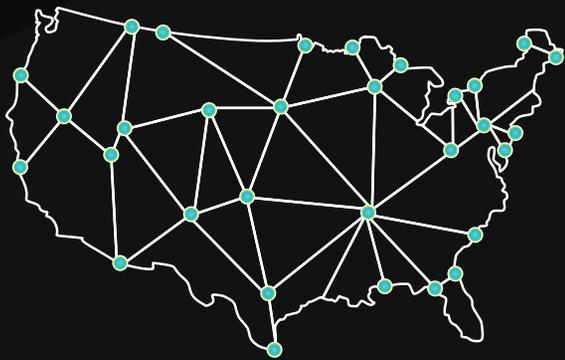

Ohio, Michigan, Illinois, Wisconsin, Indiana

DO YOU WANT THE BEST PRICES AVAILABLE FOR A HIP HOP WORKSHOP?

Summer Tours save you money immediately on travel expenses as you can take advantage of workshop dates that fit into an established travel route.

In other words, there are no flights to book and the travel expense is drastically lower as you only pay for the portion of the tour that gets me to you.

SUBJECTS AVAILABLE

PRICING

For hourly fees(workshops) or sale prices(choreography), inquire directly to see the total cost for my services. Below, you'll find some helpful information on how I price my workshops.

HOURLY RATES

My standard hourly rate applies to workshops, intensives, short teacher seminars, and any other hour considered "standard" class. My rate does not increase based on distance traveled, however a minimum number of work hours are required for me to travel more than a few hours out of state to your location. In other words, if you are located 3 or more hours outside of New Jersey or 3 or more hours away from my previous tour location, I require a minimum amount of work (Usually at least 4 hours).

SALE PRICES

This mainly applies to the sale of choreography. I do not charge an hourly rate on the instruction of choreography. Based on a number of factors (length of dance, ownership rights, and more), a contract including the sale price of the piece will be created. The final cost is a flat fee based on the sale of the product(choreography). Hourly rate is applied separately for additional dates for cleaning or technique development (if applicable).

ADDITIONAL EXPENSES

Overnight Accommodations - Applies to most workshops booked during tours, and any workshop more than 4 hours away from my home location(New Jersey). The most cost effective options (Between hotel, Airbnb, guest room, etc.) are considered.

Travel Expenses - Vehicle expenses include gas and tolls(Reduced expenses when booked during summer tours). Flight expenses include round trip ticket and transportation to and from airport, hotel, studio, etc..

SPECIAL PRICING

Discounts on hourly rate or choreography sale price may apply under certain circumstances. High quantity of requested choreography or workshop hours are usually eligible for a percentage off. This includes combinations of workshops & choreography or any other service I offer. Discounts on rates may also be available during particular dates or if you are local to my current location at the time of your requested workshop.

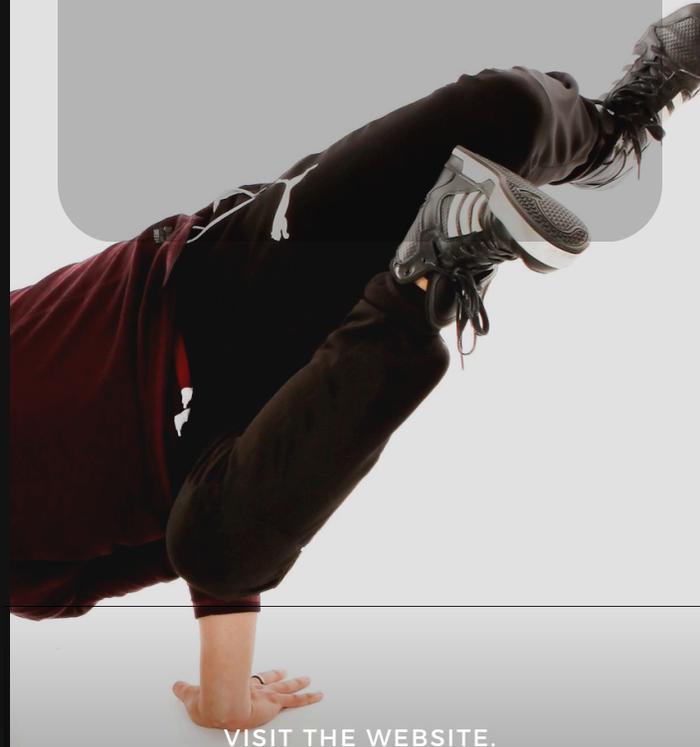

Why Choose This Workshop?

Let's go beyond the combo-based class! Hip Hop has so much to offer students when you reach into its rich history and lesser known library of terms and techniques.

My classes aim to teach students the little known core techniques while finding the appropriate challenge for every student. Whether you are an absolute beginner or a seasoned Hip Hop student, there are endless lessons for you in these classes.

Above all else, each workshop is tailored for the short term training experience. You will never simply get a sampling of my normal weekly classes. You get a program that is developed specifically for maximizing the training that can occur during intensives/workshops. Students come away with tools for continued development long after our time together has concluded.

EVERYTHING YOU NEED TO KNOW

TO BOOK A WORKSHOP

Step 1

SET A DATE

Work with me on available tour dates for your city, or request your own date based on your program needs.

Step 2

CHOOSE YOUR
WORKSHOP

Let me know the kind of experience you want, and who the classes are for. Not sure? No problem! I'll offer suggestions too!

Step 3

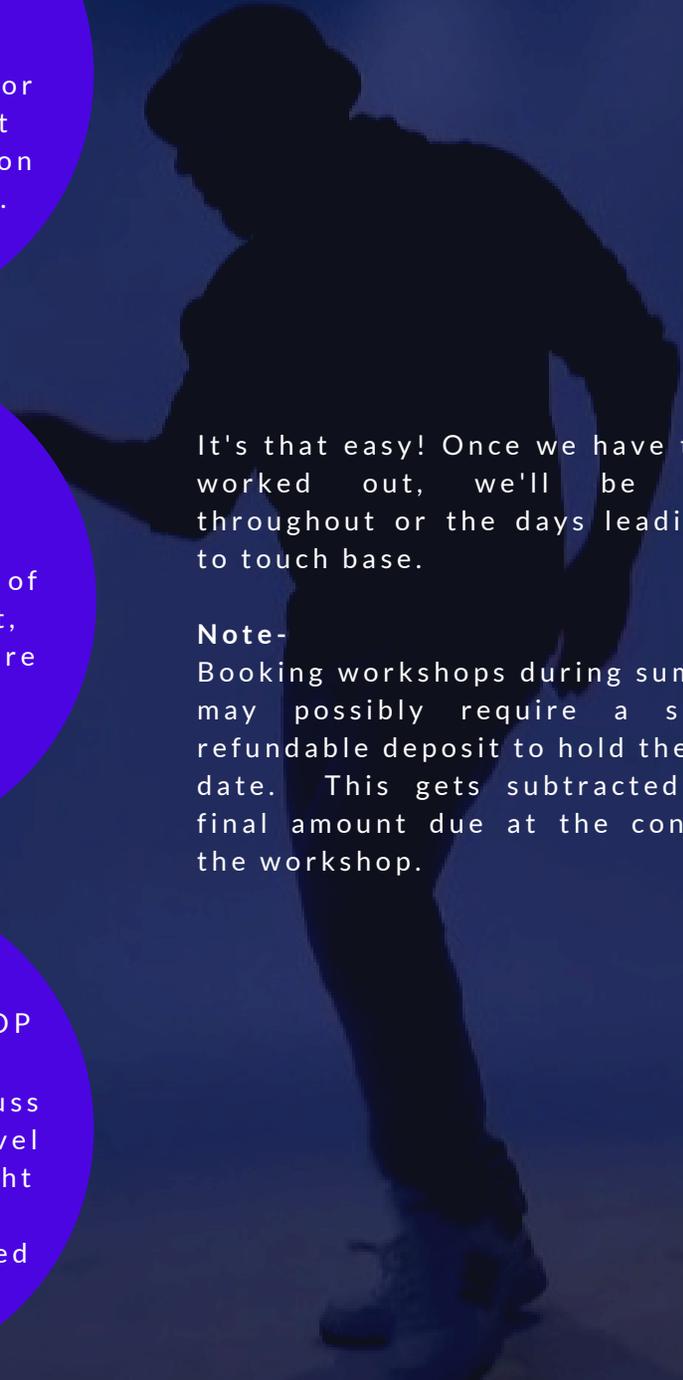

BOOK THE WORKSHOP

This is where we discuss the extra details. Travel expenses and overnight accommodations(if necessary) are covered here!

It's that easy! Once we have the details worked out, we'll be in touch throughout or the days leading up just to touch base.

Note-

Booking workshops during summer tours may possibly require a small non-refundable deposit to hold the workshop date. This gets subtracted from the final amount due at the conclusion of the workshop.

Teacher Seminars

You can book a training session for your staff or a group of local teachers where we cover any number of techniques or education methods.

www.johncomix.com/seminars

Choreography

Instead of a workshop, consider choreography for competitions or other performances. We can even arrange a piece for a professional film shoot!
